Evgen Vittsenko

Frontend Developer

 Ukraine (remote) · +380678043844 · yevhenvittsenko@gmail.com · in linkedin · @EvgenVittsenko

PROFILE SUMMARY

I have 2+ years of commercial experience in Frontend development, during which I have worked extensively with **HTML, CSS, JavaScript and Vue.js/Nuxt.js framework**. Specialize in developing projects of various scales, focusing on building new landing pages and components, implementing required logic and functionality, and working with existing codebases. Performed codebase refactoring.

I worked on projects related to a social networking platform and a financial platform (fintech).

In my chosen field, I find inspiration in the opportunity to continually develop and refine my skills, ultimately aiming to deliver maximum value to the business.

TECH SKILLS

- **Frontend Technologies:**
  HTML, CSS/SCSS, JavaScript, TypeScript
- **Frameworks:**
  Vue.js, Nuxt.js, Vuetify
- **Libraries:**
